## Abstract

A set of notes documenting the application(s) coded up to support the “Family Photo Archive” (FPA) project.

## 2021-11-21

### Initial Test Code

reminding myself of and checking Python techniques for writing a support application to provide a base archive backup of the meta data from the macOS Photos App database.

This is a python 3.x project using VS code with the documentation coded up with RStudio and Rmarkdown to .pdf.
